Sounds good –

She would just email me the date, location, who was hired to do the show (Lew's Fireworks).  
I don't need much and I just handled things on my end with the board. No one needs to be at the meeting.

Ok, I'll handle it this year. Once Krista is more settled in as finance officer, I'll have her start taking over things like this as well. Is there a form or something you need?
